

DAVID G. WILDING

Mr. Wilding holds a Bachelor of Science degree in Electrical Engineering from Brigham Young University, and a Master of Business Administration degree from the Brigham Young University Marriott School of Management. He is a 3rd-year law student at the S.J. Quinney College of Law at the University of Utah. During law school, he was the Client Counseling Competition champion, and was the recipient of the CALI Excellence for the Future award in Legal Research.

Mr. Wilding's practice emphasis is in the preparation and acquisition of patents. He has assisted clients in obtaining patents in various technologies including: Semiconductor processing, integrated circuit design, optical devices, networking, software, and business methods.

Mr. Wilding has worked in the semiconductor and aerospace industries. He spent several years working for Micron Technology, Inc. as an engineer on the manufacture and testing of semiconductor memory devices. In this capacity, he participated in the development of various DRAM and SRAM products. As an engineer, he worked for TRW (now Northrop Grumman) on DOD's ICBMs. He maintained battery, power, and code systems for the Minuteman and Peacekeeper nuclear missiles. Mr. Wilding also has experience with the construction of commercial and industrial electrical and power systems, including oil refineries, power plants, and mining facilities. As an entrepreneur, he has owned and managed his own businesses.

Mr. Wilding is registered to practice before the United States Patent and Trademark Office.
